Extra Comments

If you could change one thing about the website what would it be?	The colour scheme seems slightly off to me. I would change the way the colours look, they contrast too much.
What do you find most frustrating about the website?	To open each section you have to click on the name, not the icon or the name.
Do you have any extra comments or feedback?	I can see the basics of it but it needs some work to not feel clunky. I like the banner, it makes the interface clean and simple.
